book reviews

***Duck and Hippo In the Rainstorm* by Jonathan London**

This is a perfect book for this time of year. It is so much fun to go along with the two characters on their day out in the spring rain. The story really highlights the fact that the two friends could not be more different but somehow still respect each other and make the relationship work for both of them. As they splash through puddles and dodge around other creatures, Duck and Hippo become even closer friends as they help each other along. Duck And Hippo In The Rainstorm is simply delightful!

Jonathan London has written so many lovely children's books and he does a beautiful job with this one too. He has brought the book to life with Andrew Joyner's illustrations, and the book has a friendly old school feel to it. It is definitely worth checking out, especially for kids. — Erin Streeter, Children's Librarian

***The Spiritglass Charade* by Colleen Gleason**

One doesn't turn down the request of a princess lightly. And so, Evaline Stoker and Mina Holmes find themselves together again, trying to thwart the forces of evil and save the ones they love. It is their job to help Irene Adler figure out what is going on with a supposed spiritual interaction from a seventeen year old girl with her dead mother. In the process they find themselves entangled in a seemingly hopeless web of pickpockets and vampires. But why is this all happening now and are all these events connected? To find out, check out the second in the Stoker & Holmes series from Colleen Gleason. This exciting book is a must read for anyone who loves adventure and mystery. — Jenny Kruger, WCPL Clerk
