St. Patrick's Day: a short history

St. Patrick's Day, do you think of green beer? Do you wear a shirt that says "Kiss Me if I Pinch You" or have a desire to pinch anyone not wearing green? Did you know that St. Patrick's Day is a celebration in the 17th century to commemorate the life of Saint Patrick and the arrival of Christianity in Ireland? March 17 is believed to be the day of Saint Patrick's death. Irish immigrants came over to the American colonies early in the 18th century and the rest is history. What was once a raucous day of going to mass, watching a parade, and eating a hearty meal with family has transformed into the biggest party in the world. — *Melissa Chapman*

"Bellewether" by Susanna Kearsley : a book review

The roots of this Canadian author's story center in her own history when her family settled on Long Island in the mid-seventeenth century, at Hallett's Cove, and where during the Seven Years' War they were taken into their home prisoners of war--French officers on parole. The author makes use of a friendly ghost as a "bellewether", a harbinger leading museum curator Charley toward the history of the family that once lived in the Wilde family museum that she managed. She learns how historical Lydia brought her family together through difficult times, just as current Charley was also trying to do. This was my first book by this author and I plan to read more of her work. Susanna made good use of various viewpoints allowing a reader to see overlapping past and current events. Incorporated into the story are several slow budding romances as well as the effect on the Wilde family of the Seven Years' War and eighteenth century slavery as found in Canada and British colonies in America. The novel includes a useful reading group guide. — *Ann Zydek*

“Skinned” by Robin Wasserman : a book review

A young adult dystopian science fiction novel set in a future where people can be put into an artificial, yet human-appearing body, and have their brain downloaded into a computer to go into the mechanized body.

The main character, Lia, is a girl who suffers a horrible accident that she will never recover from, and who is placed in one of these, which society labels a “mech head”. In a world where “organic” (natural) people are fearful and resentful of the technologically advanced ones, Lia spends the entire book trying to convince that she is still human, and still fits into her old life with all of the same people.

First in the series, I look forward to reading the rest of these young adult novels. —
Melissa Skinner

Library Quilting Club: Check It Out!

The Lake City Piecemakers Quilt Club began in the spring of 2014 at the Library as an individual had just moved to Warsaw from Southern Indiana and wanted to spark the interest of the local quilters. They met for two classes on consecutive Fridays in the mornings to discuss quilting and the different steps of making different patterns. In 2014, there were only 6-8 women meeting for these classes, eventually they voted to have the club meet regularly on the second Friday of every month from 9:15am-12:15pm. The Club has since blossomed into approximately 20-25 members as of 2019.

The club includes levels from new beginners to “expert” quilters. They instruct on how to make new blocks and understand the terms of quilting. Each club meeting includes a round table discussion, a chosen topic, a show & tell and learning demonstration by a club member. They enjoy learning from each other and building lifelong friendships. They say “No quilter left behind”.

Some of their members quilt year round and make quilts for local charities. A special session is held in September for 2 days and quilts are made and given to local charities.

Lake City Piecemakers Quilt Club invites anyone that is interested in quilting from beginners to “expert” to join their club. They meet the second Friday of each month from 9:15am-12:15pm. —Denise Keller

SPECIAL MARCH PROGRAMS

EASTER BASKET WEAVING
Tuesday, March 5
5:30 - 8:00

Cost: \$30 due at registration
Participants are asked to bring: scissors, a tape measure, 6-8 spring clothespins and a flat head screwdriver if they have them.
